

CHARGING COMPATIBILITY WITH NISSAN LEAF RECOGNITION LETTER NISSAN EUROPE, S.A.S.

Date of letter submission: November 7th, 2012
Test date: October 11th, 2012
Test venue: IDIADA Automotive Technology.
L'Albornar.
E-43710 Santa Oliva (Tarragona)
Spain

DC Quick Charging Station tested:

Manufacturer: EVTEC AG
Family Name: &charge
Product Name: coffee&charge 20kW
Model Name: xFC 1.0 CHAdeMO
Serial Number: 0008
Hardware Version: 1B
Software Version: 32
CHAdeMO Certification: NO
CHAdeMO Version: 0.9

NISSAN test routine used:

Mr Charger PRO Version: MY13 LEAF-Based
CHAdeMO Version: 1.0
NTC Check Sheet Version: 1
Vehicle Used: MY11 LEAF
CHAdeMO Version: 0.9
CAN Noise Check Version: Not done
Vehicle Used: N/A
CHAdeMO Version: N/A

NISSAN R&D conditionally recognizes that the aforementioned charging station is compatible with the aforementioned NISSAN LEAF models. This conditional recognition implies the following:

- It only applies to the aforementioned NISSAN LEAF models.
- It is conditional, i.e. it is only valid provided that the following four conditions are met at a time:
 1. All the software and hardware modifications recommended by NISSAN R&D are duly implemented on the corresponding production-level charging stations.
 2. The corresponding production-level charging stations prove a right performance under real-life usage conditions.
 3. The manufacturer offers active cooperation in order to fix any charging incidence resulting from malfunction of the corresponding production-level charging stations.
 4. The manufacturer keeps NISSAN Europe informed on any hardware or software modification taking place after the finalization of the charging compatibility tests to which this letter refers.

Disclaimer

- This letter is only valid provided that it is presented alongside the corresponding test report issued by NISSAN R&D.
- The charging compatibility tests to which this letter refers, the test reports issued by NISSAN R&D, and this letter itself are exclusively meant for information and shall not be interpreted as agreement, favourable opinion or approval through which NISSAN accepts any liability for or validates the quality of the aforementioned charging station and the corresponding production-level units. Therefore, no NISSAN company will be liable for any issue arising from compatibility problems caused by the aforementioned charging station or by the corresponding production-level units.
- As the charging station manufacturer and/or seller, you have the sole responsibility for the charging station and for the corresponding production-level units.
